## Terms & Conditions for Hydrotest / Recertification

Please read our "Terms & Conditions" below. You must agree to the terms outlined in this document for PB Mechanics to perform the services you request. By signing the document below, you are agreeing to the terms and conditions. If there is no signature on the document you send in with your air system, we will be unable to perform any work.

**NOTE:** The Cylinder(s) MUST be empty prior to shipping to PB Mechanics. Cylinder must have all decals, stickers, tank covers, etc., removed prior to shipment.

### **DO NOT REMOVE OR ATTEMPT TO REMOVE THE MANUFACTURERS LABEL !**

I. If Cylinders are received with, decals, stickers etc. PB Mechanics will attempt to remove the decals, stickers etc. from the cylinder for an additional charge of \$7.00. PB Mechanics reserves the right to decline testing a cylinder due to non-removal of labels, decals, etc. The cylinder will not be tested and customer is responsible for the return freight charge. PB MECHANIX IS NOT RESPONSIBLE FOR CUSTOMER TANK COVERS OR ANY OTHER TANK ACCESSORY.

II. PB Mechanics is not liable for damage that occurs to the valve / regulator or cylinder during removal process of the valve / regulator from the cylinder. PB Mechanics will inspect the regulator "cylinder" threads (thread that screws into your cylinder) for damage. PB Mechanics reserves the right to refuse installation of a regulator due to unsafe or damaged threads.

III. Customer is responsible for all shipping charges to PB Mechanics. Customer is responsible for protecting the valve/regulator and cylinder from damage during the shipping process. Customer is responsible for filing damage claims with the shipper. PB Mechanics accepts customer(s) valve / regulator and cylinder in "as is" condition when received at PB Mechanics facility. PB Mechanics is not responsible for damage claims related to shipping to and from our facility. All claims must be filed by the customer with the carrier.

IV. PB Mechanics will test all cylinders per DOT CFR 49 and CGA requirements. Cylinders that fail DOT CFR 49 test requirements will be condemned in accordance with DOT CFR 49 and CGA requirements. The condemned cylinder and valve / regulator will be returned to the customer. Valve / regulator will not be installed on condemned cylinders.

V. REFUNDS ARE NOT ISSUED ON CONDEMNED CYLINDERS.

VI. PB Mechanics will reinstall the regulator using a red thread locker.

**NOTE:** THE THREAD LOCKER IS NOT A PERMANENT SEALANT AND IS USED PRIMARILY TO HELP REDUCE THE REMOVAL OF THE REGULATOR FROM THE BOTTLE WITHOUT THE USE OF TOOLS. THIS IS FOR YOUR SAFETY AND WE RECOMMEND THE USE OF A THREAD LOCKER.

VII. Customer may elect NOT to have PB Mechanics install the regulator. PB Mechanics recommends that the customer have a qualified air smith install the valve / regulator to the cylinder. PB Mechanics is not responsible for valve / regulator installation not performed by PB Mechanics. PB Mechanics is not responsible for the safe use of the valve / regulator and cylinder once they leave the PB Mechanics location.

**NOTE:** PB MECHANIX WILL NOT INSTALL A REGULATOR WHICH WE DETERMINE IS UNSAFE. ONE OF OUR OEM FACTORY CERTIFIED AIR SMITHS WILL CONTACT YOU WITH INFORMATION REGARDING YOUR VALVE / REGULATOR.

VIII. Cylinders returned to PB Mechanics for non delivery will be held by PB Mechanics until customer pays for return shipping charges. PB Mechanics is not responsible for cylinders not claimed and paid for within 30 days.

### **Please ship your bottle to:**

PB Mechanics, LLC

88 Glocker Way

STE 263

Pottstown, PA 19465

**\*YOU MUST WRITE "HYDRO" ON THE OUTSIDE OF THE BOX PRIOR TO SHIPPING IT TO US. ONCE SERVICES HAVE BEEN PERFORMED, WE WILL CALL YOU FOR YOUR PAYMENT AT THE NUMBER YOU LIST ON THE CONTACT AND SERVICES FORM.**
